

phendei ផែនដី

earth

noun

1. the planet on which we live; the world synonyms: world, globe, planet, sphere, orb

2. the substance of land surface; soil. "a layer of earth"

synonyms: soil, topsoil, loam, clay, silt, dirt, sod, clod, turf

ABOUT US

phendei works to support the planet with a strong commitment to environmental awareness made with sustainable materials sourced from the earth, producing more with less.

OUR ARTISANS

phendei products are designed in Australia and made in Cambodia by skilled Artisans working an ancient craft of their ancestral people. We work closely with a workshop in Cambodia that employs marginalised and disadvantage women and men giving them sustainable employment opportunities. All employees at the workshop are paid above the local minimum wage and are provided with benefits and training opportunities, as well as a space that nurtures their creativity and offers a sense of community.

OUR PROCESS

phendei products are individual pieces of art. With no use of modern machinery. Each piece is handmade and fired in a replicated wood Dragon Kiln simulating antique Khmer techniques as used by the Angkor Empire.

OUR PRODUCT

Due to the hand made nature of our product please note that slight variations in colour and design are unavoidable. When ordering multiples we do our best to make sure the pieces match as closely as possible. Our products are deemed microwave, freezer and dishwasher safe, however we recommend care and hand cleaning your ceramics for longevity.
